AUDIT & ASSURANCE

Audits and review engagements are performed in accordance with International Standards on Auditing (ISAs) for IFRS financial statements, for companies registered in Cyprus and in other jurisdictions.

Our audit approach is **risk-focused and pragmatic**. We look beyond checklist compliance to **understand** the underlying business, **assess** areas of judgment, and **identify** matters in financial reporting or internal control that warrant management's attention.

Clients typically engage us when they require an **audit partner** who is technically robust, commercially aware, and directly accessible.

TAX ADVISORY

Corporate tax compliance, supported by ongoing advisory services.

We advise on the **Cyprus tax framework** in both **domestic** and **international contexts**, with particular focus on tax structuring and applicable incentive regimes.

Our objective is to **ensure** compliance is **robust**, tax positions are **defensible**, and potential exposure is **identified** and **addressed** at an early stage.

ACCOUNTING & BUSINESS CONSULTANCY

Accounting and financial reporting services designed to support informed decision-making.

We **prepare** management and statutory financial information, **ensuring consistency** between accounting records and tax and VAT filings. This reduces friction, rework, and uncertainty at year-end.

Our accounting services are suited to businesses that value **timely information**, **regulatory compliance**, and a **structured approach** to financial reporting.

HOW WE WORK

Our work is **structured, predictable,** and **partner-led.** We work closely with clients to understand their business and identify accounting, tax, and compliance risks at an early stage.

Services are delivered with **senior oversight,** clear and direct **communication,** and a **commitment** to client deadlines.
